Drilling Permit / Permit on Existing Application

This application is for production wells within the EUWCD district that are capable of producing more than 25,000 gallons of water per day.

CHECK ALL THAT APPLY: Permit an Existing Well

Drill a New Well

Transport Permit for Water Leaving the EUWCD

Brackish

Large Capacity (for all wells on contiguous acreage totaling more than 5,000 permitted ac-ft/year)

Application Checklist

Evidence the applicant has legal authority to produce groundwater associated with the land surface and the permit application. (Rule 5.3(b)(4)) DISTRICT PROVIDED AFFIDAVIT FORM for [Individual](#) or [Entity](#)

Including any documents that transfer the right to own, control, or produce the groundwater rights to another person/entity that are associated with land surface and the permit application.

Lease Documents or Deeds and Survey Documents for the Acreage Claimed, if Applicable

Well Closure Plan is Attached

Anticipated Pump Specifications Are Attached (Rule 7.2(b)(23)) (Type, Horsepower, and Pump Curve)

Application Fee

Part 1: Applicant, Well Owner, and Well Driller Information (Rule 7.2(b)(2))

1.A Landowner Information

If Multiple Landowners

Landowner			
Mailing Address			
Residence / Principal Place of Business Address			
Email Address		Phone	

1.B Well Owner (Owns Water Rights) Same as Landowner (Skip to Section 1.C)

Well Owner			
Mailing Address			
Residence / Principal Place of Business Address			
Email Address		Phone	

1.C Well Operator (Lessee/ reporting agent) Same as Landowner / Same as Well Owner (Skip to Part 2)

Well Operator			
Mailing Address			
Residence / Principal Place of Business Address			
Email Address		Phone	

Part 2: Property Ownership & Leases

2.A Parcel(s) Information (Rule 7.2(b)(9 &4))

Parcel ID	Acreage	Owner Listed on Parcel

If parcels exceed table above, check box to indicate an attachment with complete list of parcels

2.B Ownership

For all property and parcels owned, please check box to indicate attached Platt, Survey, and Deed.

Platt or Survey Attached Deed

2.C Lease Agreements

If additional acreage is leased to the well operator, please check box to indicate attached lease agreement(s)

Lease Agreement

Part 3: Driller & Pump Installer

3.A Well Driller (Rule 7.2(b)(22))

Drilling Company Name			
Mailing Address			
Email Address		Phone	
License #		Expiration Date	

3.B Pump Installer (Rule 7.2(b)(23))

Pump installer is the same as the Driller (Skip to Part 3)

Pump Installer Company			
Mailing Address			
Email Address		Phone	
License #		Expiration Date	

Part 4: Proposed Well Construction Details (Rule 7.2(b)(7&10))

4.A Driller Construction Details

Total Depth (ft BGS):		Open Hole Depth (ft BGS)	
Borehole Diameter (in)		Target Aquifer	
Casing Diameter (in)		Casing Depth (ft BGS)	
Casing Type		Screening Interval(s)	
Grout Depth (ft BGS)		Grout Method	
Desired Rate of Production (GPM)		Annual Production Volume (ac-ft/yr)	
Date Drilling Scheduled to Begin		Anticipated Drilling Completion Date	

4.C Pump Installation Details

Pump Type		Pump Size (hp)	
Desired Rate of Production (GPM)			
Date Pump Install Scheduled to Begin		Date Anticipated Pump Install Completed	

Part 5: Metering (Rule 8.1(a))

Meter Make: _____ Meter Model: _____

Serial Number: _____ Confirm meter is included in driller's estimate

Part 6: Well Closure Plan (Rule 7.2(b)(21))

_____ (initial) Applicant agrees to comply with well plugging guidelines and report closure to the EUWCD

Are there open hole wells on the property that are suitable for monitoring? Yes No

Part 7: Well Location and Property Description (Rule 7.2(b)(3))

Proposed Well Name: _____

Well Location			
	Street Address	City	Zip
Latitude:		Longitude:	
This well is located	Ft from the nearest property line		

Part 8: Floodplain

Will the Well be located in a FEMA Designated Floodplain? Yes No

Resources- If located in Atascosa, Karnes or Wilson County : <https://euwcd.half.com/Map/Public>

Part 9: Wastewater and Contamination Sources (Rule 7.2(b)(23))

Distance to nearest on-site sewage facility (septic or wastewater system) _____ ft

Are there additional sources of contamination nearby? Yes No

If yes, please describe: _____

Part 10: Existing Wells on Property (Rule 7.29b (17))

This includes any wells on property and any use. Please also include abandoned / capped wells.

EUWCD Well ID	State Report ID	Well Lat/Long	Current Status

If wells exceed table above, check box to indicate an attachment with complete list of wells

Part 11: for Resale Applicants Only: Water Resale (Rule 7.2(b)(15))

For all well owners/operators who are selling water for any use, please attach the following.

- Water Conservation Plan Emergency Management Plan

The Water Conservation Plan should include at minimum (a) five (5) and ten (10) year Goals and measures, (b) Means for Implementation, (c) description of the leak detection program, (d) an Enforcement, and (e) proof of notification of the Region L Water Planning Group.

Part 12: Public Water Supply (Rule 7.2(b)(15))

Public Water Supply Number (if applicable) _____

CCN or Registration Number: _____

Doing Business As: _____

Responsible Party: _____

Number of Connections or Customers : _____

Population Served: _____

Other Resale Use _____

Type of Metering: _____

Attached Shapefile of CNN? Yes No

Operating Permit Terms:

This Permit is granted subject to these Rules, orders of the Board, and the laws of the State of Texas. In addition to any special provisions or other requirements incorporated into the permit issued by the District.

- (1) This Permit is granted in accordance with provisions of the Rules of the District, including amendments, and acceptance of this Permit constitutes an acknowledgment and agreement that Permittee will comply with the Rules of the District.
- (2) An operating and drilling permit for a well or well site will automatically expire within one (1) year from its issuance if the permitted well(s) has not been completed as demonstrated by submission of the state driller's report and state well number.
- (3) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued use for the permitted amount of water withdrawal.
- (4) This Permit confers only the right to operate the permitted well under the provisions of the District Rules and its terms may be modified or amended pursuant to the provisions of those Rules. To protect the permit holder from the illegal use of a new landowner, within ten (10) days after the date of sale of property containing a well having been issued an operating permit, the operating permit holder must notify the District in writing of the name of the new owner. Any person who becomes the owner of a currently permitted well must, within forty-five (45) calendar days from the date of the change in ownership, file an application for a permit amendment to affect a transfer of the permit.
- (5) The District may amend or revoke an operating permit at any time if there is evidence of:

- (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.
- (6) The operation of the well for the authorized purposes must be conducted in a non-wasteful manner.
- (7) All groundwater production from non-exempt wells in the District is required to be metered. Permittee shall maintain records of withdrawal on the property where the well is located or at its business office and shall make those records available to the District for inspection. The Permittee shall submit complete, accurate, and timely metered water withdrawal and transport reports to the District annually, as requested by the District, no later than January 15th of each year.
- (8) The well site must be accessible to District representatives for inspection, and Permittee agrees to cooperate fully in any reasonable inspection of the well and well site by the District representatives.
- (9) The application pursuant to which this Permit has been issued is incorporated in this Permit, and this Permit is granted on the basis of and contingent upon the accuracy of the information supplied in that application. A finding that false information has been supplied is grounds for immediate revocation of the permit.
- (10) Violation of this Permit's terms, conditions, requirements, or special provisions, including pumping amounts in excess of authorized withdrawal, is punishable by civil penalties as provided by the District Rule 14.3, as well as revocation of the permit.
- (11) Permittee will use reasonable diligence to protect groundwater quality and will follow well-plugging guidelines at the time of well closure.
- (12) The issuance of this Permit does not grant to Permittee the right to use any private property, or any public property, for the production or conveyance of water. Neither does this permit authorize the invasion of any personal rights nor the violation of any federal, state, or local laws, rules or regulations. Further, the District makes no representations and shall have no responsibility with respect to the availability or quality of water authorized to be produced under this permit.

Well Owner Acknowledgement

I agree that this well will be drilled within thirty (30) feet of the location specified, or within five percent (5%) of the distance used to determine the location of the well, whichever is greater, and that I will furnish the District the complete Well Registration form and Driller's Log (Well Report provided by driller), and any mechanical log that might be made, within 60 days of completion of this well. I agree to abide by the rules of the Evergreen Underground Water Conservation District , the District Management Plan, and orders of the Board of Directors. Furthermore, I agree not to produce this well without a valid Production Permit, and not to exceed the production allowance of the Production Permit. All the information provided in and with this application is true and correct to the best of my knowledge.
