NOTICE OF PUBLIC HEARING
OF THE EVERGREEN UNDERGROUND WATER CONSERVATION DISTRICT
BOARD OF DIRECTORS
REGARDING

Proposed Desired Future Conditions and Relevant Aquifer
Designations for Groundwater Management Area 13

at the District Offices, 110 Wyoming Blvd.,
Pleasanton, Atascosa County, Texas
Friday, June 26, 2026, at 9:00 a.m.

At an open meeting of the **Groundwater Management Area 13 Joint Planning Committee** (GMA-13) held on April 22, 2026 in Pleasanton, Texas, and attended by representatives from the following groundwater conservation districts located wholly or partially within Groundwater Management Area 13: Evergreen Underground Water Conservation District, Gonzales County Underground Water Conservation District, Guadalupe County Groundwater Conservation District, McMullen Groundwater Conservation District, Medina County Groundwater Conservation District, Plum Creek Conservation District, Uvalde County Underground Water Conservation District, and Wintergarden Groundwater Conservation District; GMA-13 considered and adopted the following Proposed Desired Future Conditions (DFCs) for GMA-13 regional groundwater planning purposes:

Evergreen Underground Water Conservation District's proposed desired future condition is expressed as an average overall drawdown (measured in feet) for each aquifer from the end of 2017 conditions through the year 2080 based on GAM Run 26.17.

- The Queen City Aquifer (Layer 6) will be expressed as an average drawdown of 66 feet for Frio County, 54 feet for Atascosa County, and 32 feet for Wilson County; calculated from the end of 2017 conditions through the year 2080.

Evergreen Underground Water Conservation District
110 Wyoming Blvd
Pleasanton, TX 78064

- The Carrizo-Upper Wilcox (Layer 7) will be expressed as an average drawdown of 153 feet for Frio County, 95 feet for Atascosa County, and 77 feet for Karnes and Wilson Counties; calculated from the end of 2017 conditions through the year 2080.
- The Wilcox Aquifer (Layers 8 and 9) will be expressed as an average drawdown of 113 feet of the Middle and Lower Wilcox aquifer for Frio, Atascosa, and Wilson Counties; calculated from the end of 2017 conditions through the year 2080.

Relevant documents used by the GMA 13 Joint Planning Committee in creating the proposed DFCs can be accessed at <https://www.gma13.org/dfc-materials/current-cycle>.

Members of the public are invited to attend and provide oral comment, testimony, and/or submit other documentation and information relevant to the Proposed DFCs and Relevant Aquifer Designations to the Board of Directors at this Public Hearing.

If unable to attend the Public Hearing, members of the public are invited to submit written comments, testimony, and/or other documentation and information relevant to the Proposed DFCs and Relevant Aquifer Designations to the Board of Directors at the District Office located at:

110 Wyoming Blvd, Pleasanton TX 78064

GMA-13 has prepared standardized Public Comment Forms to help you organize and substantiate your submission. This form is available at the address above and on <https://evergreenuwcd.org/gma-13/>

The Public Comment period runs from May 4, 2026 – August 3, 2026 at 5 PM CST.

Evergreen Underground Water Conservation District
110 Wyoming Blvd
Pleasanton, TX 78064

The District will prepare a report of any relevant comments received at the Public Hearing and attach any written comments, testimony, and/or other documentation and information relevant to the Proposed DFCs and Relevant Aquifer Designations received through August 3, 2026 at 5 PM CST. This report and attachments will be provided to the GMA-13 for their review, consideration, and incorporation into the DFC decision-making process.

Questions or requests for additional information may be submitted to:
