

Application for Meter Assistance

The Evergreen Underground Water Conservation District is offering the meter assistance program through an Agricultural Water Conservation Grant from the Texas Water Development Board. The intent of the grant is to assist existing irrigation well permit holders in the District in the purchase of in-line volumetric flow meters for existing irrigation wells and systems. Up to 50% of the meter cost can be reimbursed through the grant. The program concludes on the earlier date of 10/31/2026 or when all funds have been exhausted.

Requirements for Assistance:

1. *The well must have an active permit, issued prior to August 27, 2021.*
2. *Production reports must be submitted annually.*
3. *Well and permit must be in good standing.*
